

## About GINA

### What Is Growing Indiana Agriculture?

Growing Indiana Agriculture (GINA) is an education and awareness program with the goal of increasing soybean meal demand by developing Indiana's livestock industry in a manner that is environmentally safe, socially responsible, and economically viable for farmers who want to raise livestock.

GINA's project work area focus on:

- Creating demand for Indiana's soybean meal
- Livestock Business Development
- Community Education & Relations
- Research

GINA programs are funded by the Indiana Soybean Alliance and the soybean checkoff.
