

## Economics

[It Pays To Have Livestock In Your County...](#)

Animal agriculture is worth real dollars on both a state and national level, and to your local community. And those dollars add up to millions in tax revenue. This information has been compiled by Promar, an independent research company, and provides an in-depth analysis about how much revenue results from animal agriculture. Use the calculator to see how much of an impact an animal ag operation has on your local economy.
